Dear Supporter:

We are proud to sell 'Target Your Discount' cards as our fundraiser. 50% profit from this sale will go towards costs/expenses of our group and will help us out, immensely. This is one of the most profitable fundraisers out there and we are asking for your support. The success of this program depends on your active participation.

The benefits of this fundraiser go beyond just the sale. You can use the discount cards unlimitedly throughout the entire year and save at all participating merchants. You can mix and match locations if you travel, work or have friends/family in different locations in Central PA. You can also use the Key tab at any of the **participating merchants** on the TYD website and save, regardless of your location. The discounts are printed on the cards in the local area and you can view all other locations on the www.targetyourdiscount.com site and of course save at these merchants by flashing the key tab. There is no hassle with coupons or big, bulky coupon books. The cards are convenient because you can carry it around in your wallet/purse and just simply flash it for the discount and use it all over again as many times as you want.

You can pre-order or purchase the cards as the group has them in hand. The selling period is about a few weeks to a month and you can use the cards immediately or wait until the year period begins. Checks can be written out to our local group.

If you have any questions, please feel free to ask the seller or our group leader. If you have other questions, comments or issues, you may contact Target Your Discount directly through the 'Contact Us' section of their website or by calling the number on their site or back of the card or email sales@targetyourdiscount.com. Lastly, we thank you for your support and participation with this fundraiser.

Sincerely,
